Community Now!

Community Now! is a statewide 501 c3 nonprofit organization passionately committed to promoting inclusive communities for all Texans often marginalized because of a disability.

COMMUNITY **NOW!**

We Believe...

Our loved ones with disabilities should have the option to live in their communities and not languish on long waiting lists for services or forced to live in a dangerous, dehumanizing segregated institution.

The services for our citizens with disabilities must be nothing short of exceptional and that those responsible for providing these services must be held accountable.

Public policy and tax dollars must be aligned to support Texans with disabilities who want to live in smaller, more cost efficient settings in their communities and no longer support the waste and abuse of a failed institutional system.

COMMUNITY **NOW!**

What is your dream?

- What do you want for your child now and in the future?
- **What do they want for themselves?**
- How do YOU define your role in helping your child reach ***their*** goals?
- Who can help you to help your child reach their goals?

... disability is a natural part of the human experience and in no way diminishes the right of individuals to —

- (A)** live independently;
- (B)** enjoy self-determination;
- (C)** make choices;
- (D)** contribute to society;
- (E)** pursue meaningful careers; and
- (F)** enjoy full inclusion and integration in the economic, political, social, cultural, and educational mainstream of American society
